

Extraordinarily penetrating, flower oleo-essence for maximum hydration. 100% vegetable and essential oils with great antioxidant and rejuvenating power. Very rich in unsaturated, essential fatty acids, conferring flexibility and suppleness to the tissues whilst also deeply nourishing and toning the skin. Ideal for fighting wrinkles and stretch marks. This is why we especially recommend its use since the early stages of pregnancy.

Enriched with aromatic plants, shoots and natural essential oils, this unparalleled, unique and brilliantly efficient natural vegetable oil achieves a **marked rejuvenating effect**.

Containing no animal or mineral fat, nor "human sebum-friendly" saturated fats, the oil lets the skin breathe and drives its rich aromatic components to its deepest layers. Complexion is visibly improved, becoming more beautiful, glowing and smoother.

### Ingredients and their richness

Helianthus annuus seed oil · Rosa centifolia flower extract · Centella asiatica extract · Triticum vulgare germ oil · Parfum · Linalool\* · Benzyl benzoate\* · Geraniol\* · Farnesol\*  
(\*from its natural essential oils)

Exceptional interaction of **Macerated rose oil**, rich in vitamin C, carotenoids and tannins, known for their rejuvenating effect; **Wheatgerm oil**, rich in antioxidant vitamin E; **Unsaturated fatty acids**, whose emollient effect makes complexion that much more flexible and youthful; and **Centella asiatica**, which is very rich in flavonoids, to favour collagen biosynthesis at the connective tissue level (fights stretch marks), reinforce the product's properties and combine beautifully with its **Natural essential oils** for a rejuvenating effect.

### Dermocosmetic functions

- ✦ **Nourishes deeply**, embellishing, protecting and adding resilience to the skin.
- ✦ **Revitalises** epidermal cells, allowing the skin to breathe and thermo-regulate itself while protecting its natural flora. It improves skin tone, drains impurities and provides smoothness and flexibility.
- ✦ **Rejuvenates**, smoothing wrinkles and preventing the premature ageing of the skin.

### Indications

For all skin types, including oily skins  
Very dry, rough and dehydrated skin lacking elasticity  
Dull skin  
Sensitive skins with a history of allergies to other cosmetics  
Couperosis, redness and flaking skin  
Premature ageing of the skin and wrinkles (even on the contour of the eyes and lips)  
Minimises and prevents the appearance of stretch marks (pregnancy, weight loss diets...)  
Very efficient for the care of the breasts if combined with **Body phyto-emulsion**

### Directions for use

Apply always gently massaging with your fingertips and pampering the skin.  
Improved efficiency previously cleaning the skin with **Bamboo saps**.  
It can be used at any time of the day or night.  
Rapid absorption without a greasy afterfeel.

Apply the Revitalising oil mixed with **Bamboo virginal milk** to maximise its moisturising, suppleness and rejuvenating properties. Ideal for the contour of the eyes. Very recommended on cold mornings.

Likewise, it has a unique effect in areas with flaccidity if mixed with **Anti-ageing emulsion**.

Great for fighting stretch marks if mixed with **Body phyto-emulsion**. During pregnancy, apply Revitalising oil on the abdomen. For improved results, alternate with **Body phyto-emulsion** or combining both products.

Revitalising oil is perfect for mixing with any **Dulkamara bamboo** emulsion and cream. It enhances their action and facilitates application and massage. This practice is very positive, especially for drier skins.
