

Very complete skin care (including neck, neckline, chest) which provides suppleness and smoothness. Ingredients firm and relax tissues, stimulating microcirculation and enhancing fragile capillaries. Ideal for tired legs and feet, it is efficient against spider veins, flaccidity, cellulite, and stretch marks.

Natural treatment cream formulated to develop an exceptional softening action in areas of the skin that are more fatigued, stressed or painful. Thanks to its richness in trace elements, vitamins and **Unsaturated fatty acids**, the emulsion maintains the necessary moisturisation and nourishment to keep skin soothed, smooth and elastic for extended periods.

Ingredients and their richness

Aqua • Rosmarinus officinalis leaf extract and Helianthus annuus seed oil • Kaolin • Butyrospermum parkii butter • Styrax benzoin resin extract • Lecithin • Coffea arabica seed extract • Hectorite • Parfum • Phyllostachys viridis • Bambusa arundinacea stem extract • Rubus idaeus fruit extract • Sorbic acid • Tocopherol • Limonene* • Citral*
(*from its natural essential oils)

These active ingredients maximise the properties of this product: **Macerated rosemary oil and Coffee extract** are relaxing, detoxifying and stimulate microcirculation to strengthen fragile capillaries; **Karite butter** is rich in unsaturated fatty acids, which moisturises and maintains skin flexible. Also enhanced with **Bamboo shoot and stem extracts** providing amino acids (proteins), vitamins and trace elements like silicon, which strengthens tissues and increases their flexibility.

The emulsion includes **Natural essential oils**, selected for their incredible scents as well as for their soothing, anti-ageing, purifying and circulation-stimulating properties

Dermocosmetic functions

- **Moisturises and nourishes** making skin look younger thanks to the contribution of unsaturated lipids with emollient action.
- **Smooths the skin** providing elasticity and resilience.
- **Tones, firms and soothes**, reducing stress and providing relief and relaxation.

Indications

For all skin types
Breast care
Dryness, flaking or irritations
Flaccidity and cellulite
Prevention and treatment of stretch marks
Spider veins (legs). Tired legs and feet
Protection against aggressive external agents (humidity, cold, detergents)
Efficient support for circulatory problems
Very important before and after a liposuction

Directions for use

Always shake before use

We recommend applying this product with gentle massage (drainage). It will be very positive to fight cellulite (mobilises fat), liquid retention (water accumulation in legs) and circulatory problems (helps return circulation).

For improved performance and application, use on wet skin, after showering or bathing, or on skin that has previously been moisturised with **Bamboo virginal milk** or with a **Floral water**.

Apply 1 or 2 times a week for normal skin care. In the leg area, apply first on feet and move upwards to the thighs. Breast care results are improved if we mix the emulsion with **Revitalising oil**.

Daily use in areas of dry skin and damaged necklines, or in areas showing stretch marks and increased flaccidity.

Apply twice a day to treat cellulite. For faster results, apply **Skin mask** in the area as well. You can also mix both products.

During pregnancy, apply on the abdomen to avoid the appearance of stretch marks. For improved results, alternate with **Revitalising oil** or combine both products.
